# **THE 1962 WILSONIAN**

**PRESENTED BY THE SENIOR CLASS OF  
WILSON HIGH SCHOOL  
WEST LAWN, PENNSYLVANIA**

## WILSON OLYMPICS

Every four years, thousands of great amateur athletes from the nations of the world compete in a gigantic sports show called the Olympic Games. No other sports spectacle has a background so historic, dramatic, or thrilling.

Flags flutter from the top of a crowd-filled stadium. Cheers ring out as a swift runner carries a blazing torch into the arena to light the Olympic flame. The lighted torch has been brought many miles from Elis, Greece where the games began 2,500 years ago.

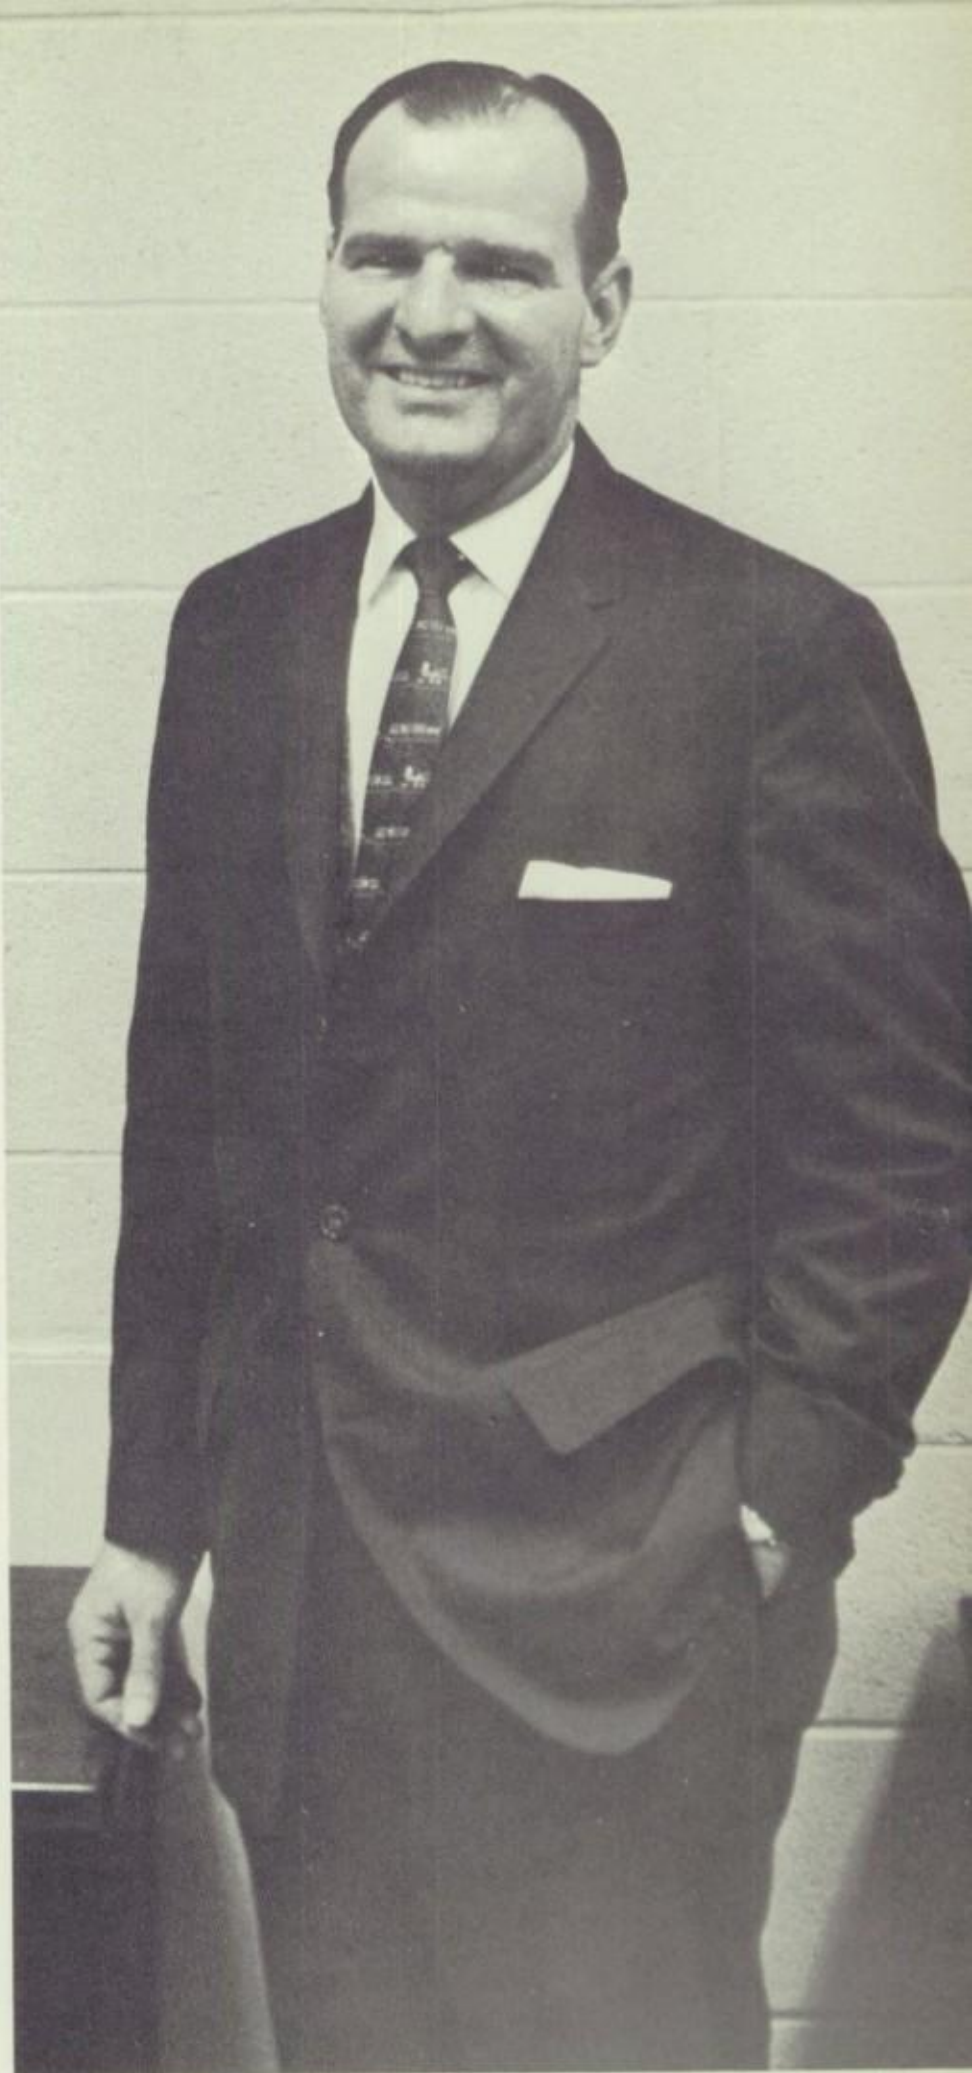

We, as seniors, have now carried the Torch of Wilson High School for four years. It is time for us to light the fires of resourcefulness and ingenuity. Just as the Olympic Games develop the whole man, it has been the prime objective of Wilson High School to build the men and women of tomorrow from the youth of today. As we prepare to enter the threshold of life, we are equipped with an education, not only of the history and fundamentals of our civilization, but of an understanding of our fellow man.

# DEDICATION

For his willingness to give of himself to the educational and social growth of our class, we will always remember one of our most helpful advisors, not only during our junior year, but also in our senior year.

His unselfish service as sponsor to the WILSONIAN and attitude toward the Senior Class has added to the respect we all have for him. Therefore, we, the Class of 1962, proudly dedicate our WILSONIAN to Mr. Forrest D. Fleishood - - teacher, advisor, and friend.

# IN MEMORIAM

WILLIAM C. KUTZ, JR.

The faculty and student body note with deep regret the passing of Mr. William C. Kutz, Jr. who died in the Reading Hospital on November 22, 1961. Mr. Kutz, Jr. is the son of Supervising Principal William C. Kutz, Sr.

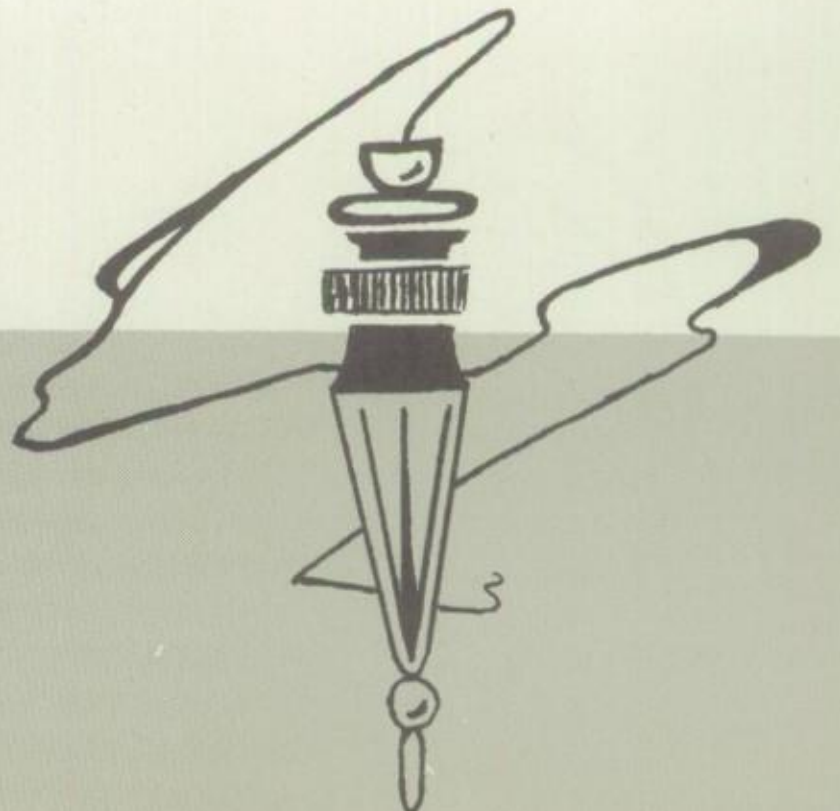

After graduating from Albright College in 1960, he returned to Wilson High School to teach social studies. Active in many community and church activities, he participated in Wilson's social functions as well and was a willing sponsor for many school clubs and activities.

His friendship and understanding will always remain in the minds and hearts of those who knew him.

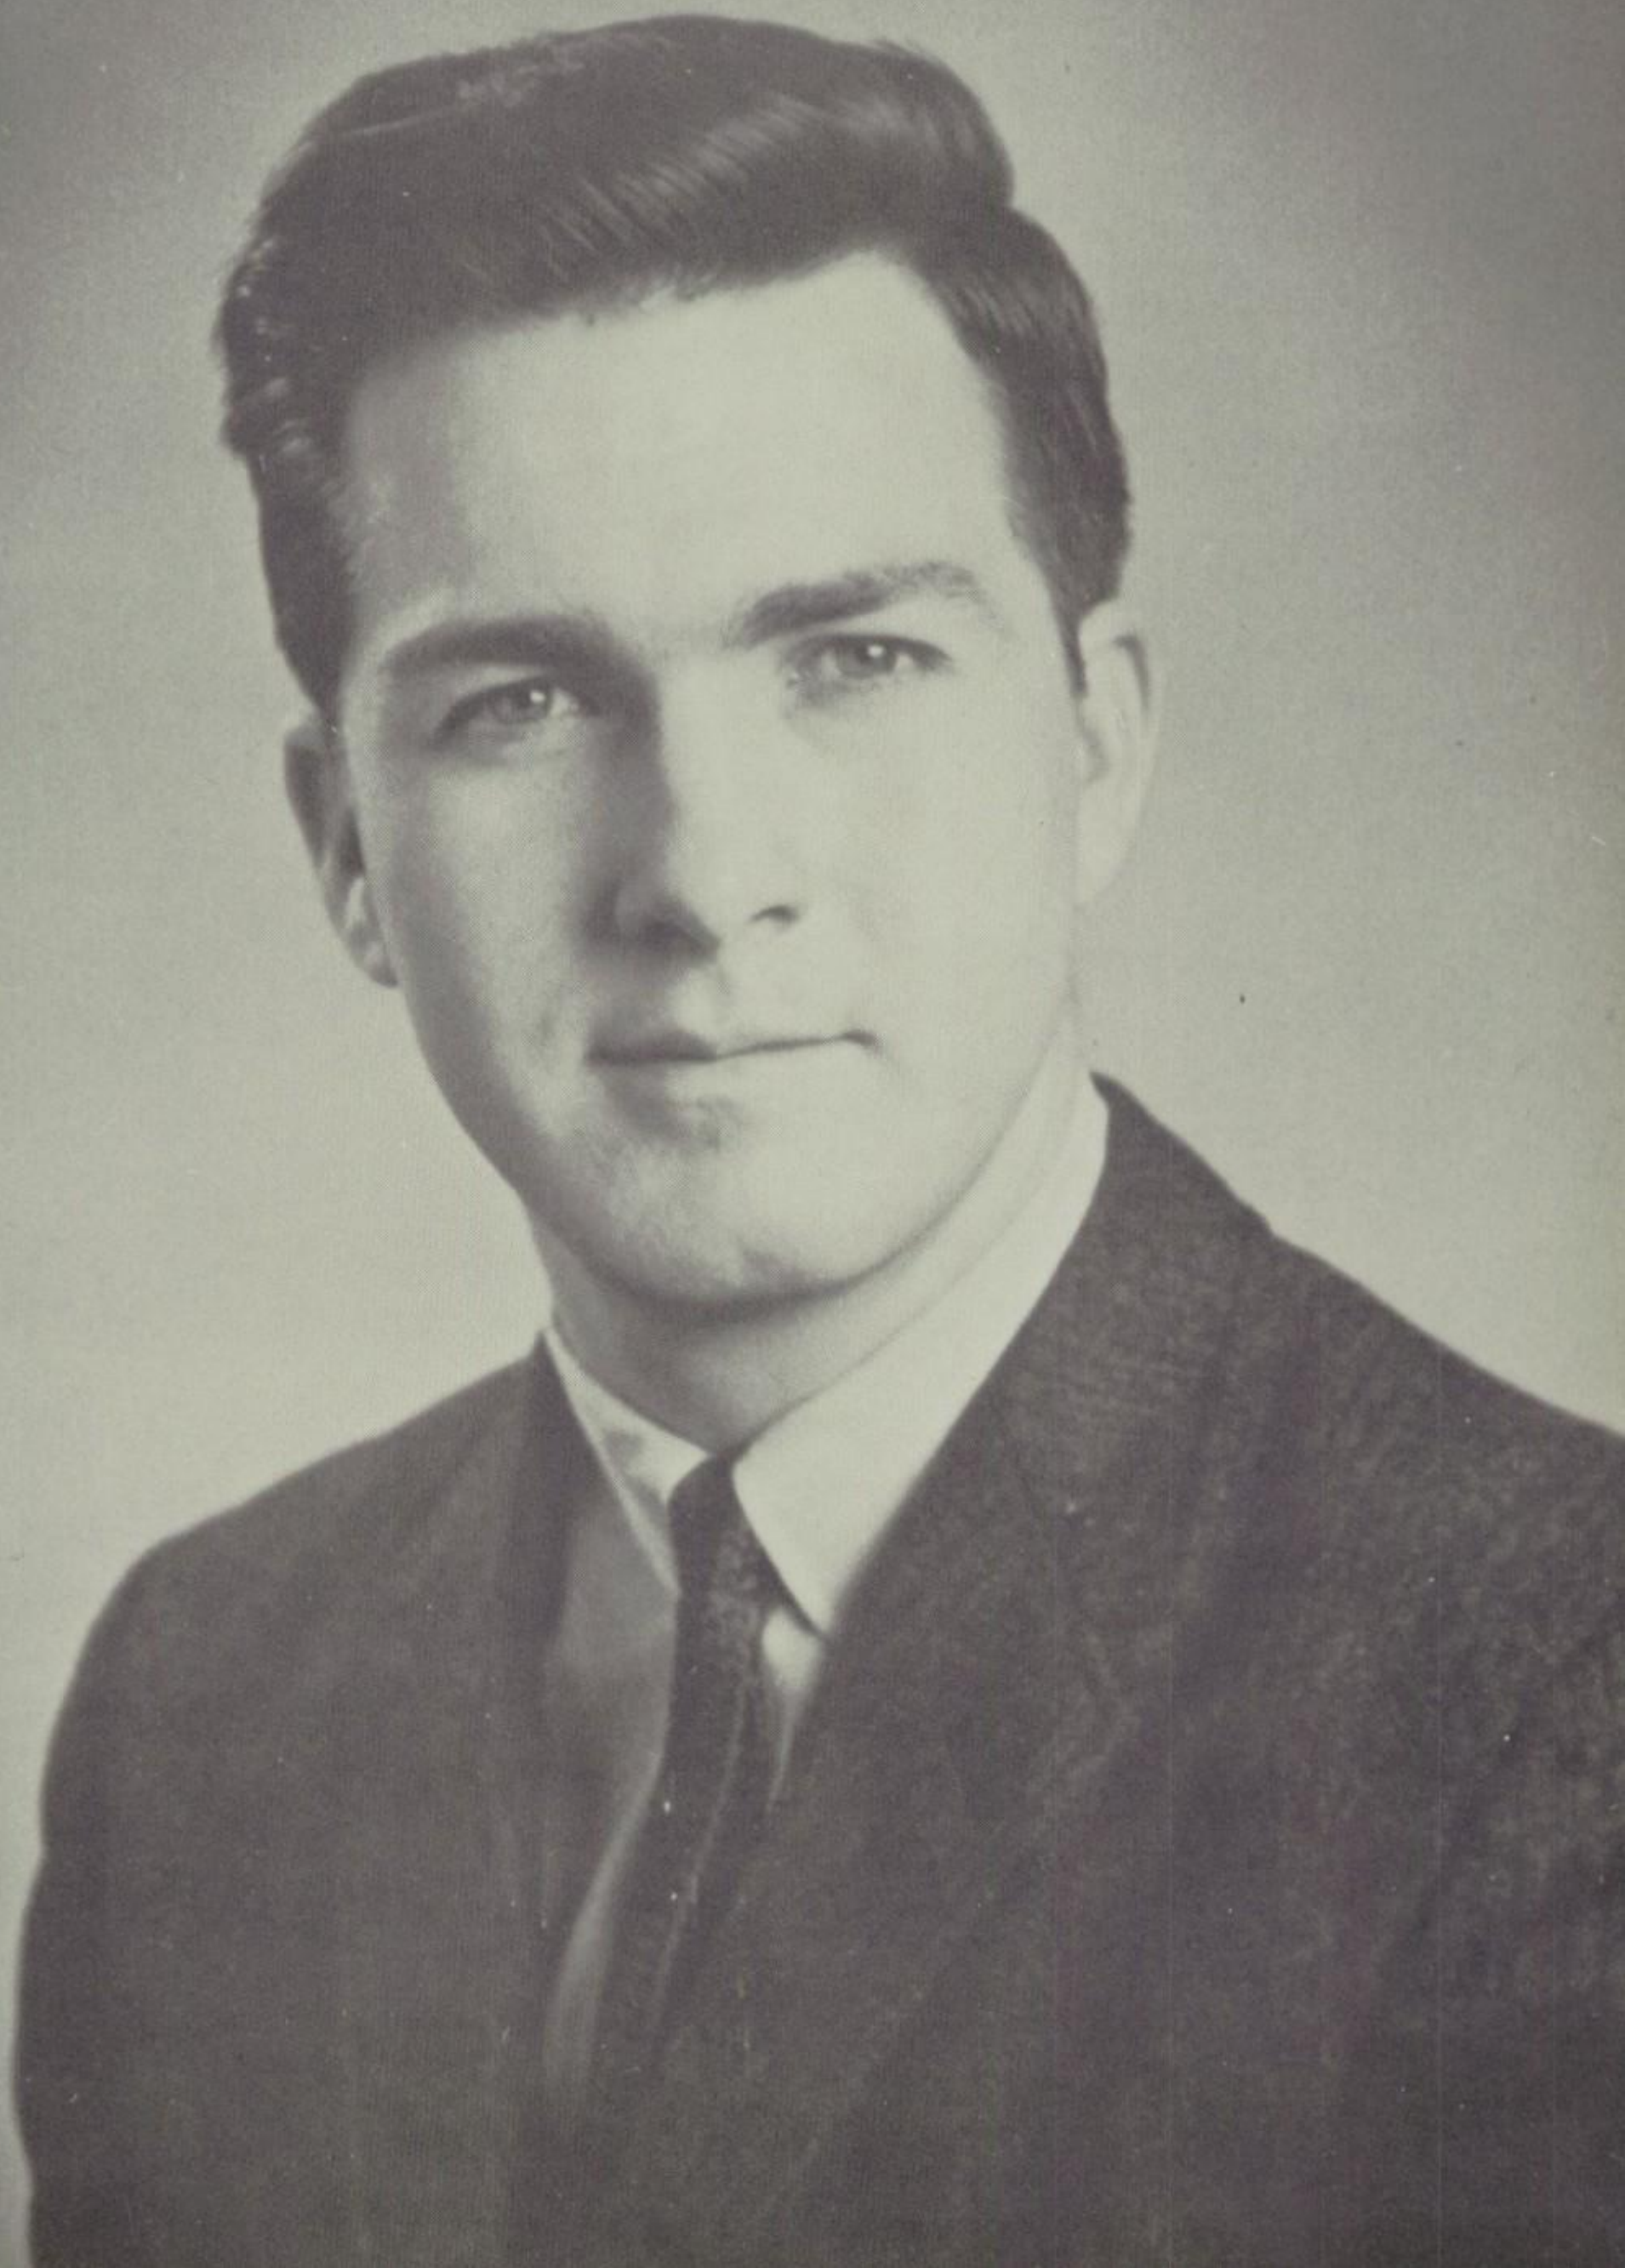

William Cullen Bryant, in *THANATOPSIS*,  
tells us about living a life as follows:

As the long train  
Of ages glides away, the sons of men--  
The youth in life's fresh spring, and he who goes  
In the full strength of years, matron and maid,  
The speechless babe, and the grayheaded man--  
Shall one by one be gathered to thy side,  
By those, who in their turn shall follow them.

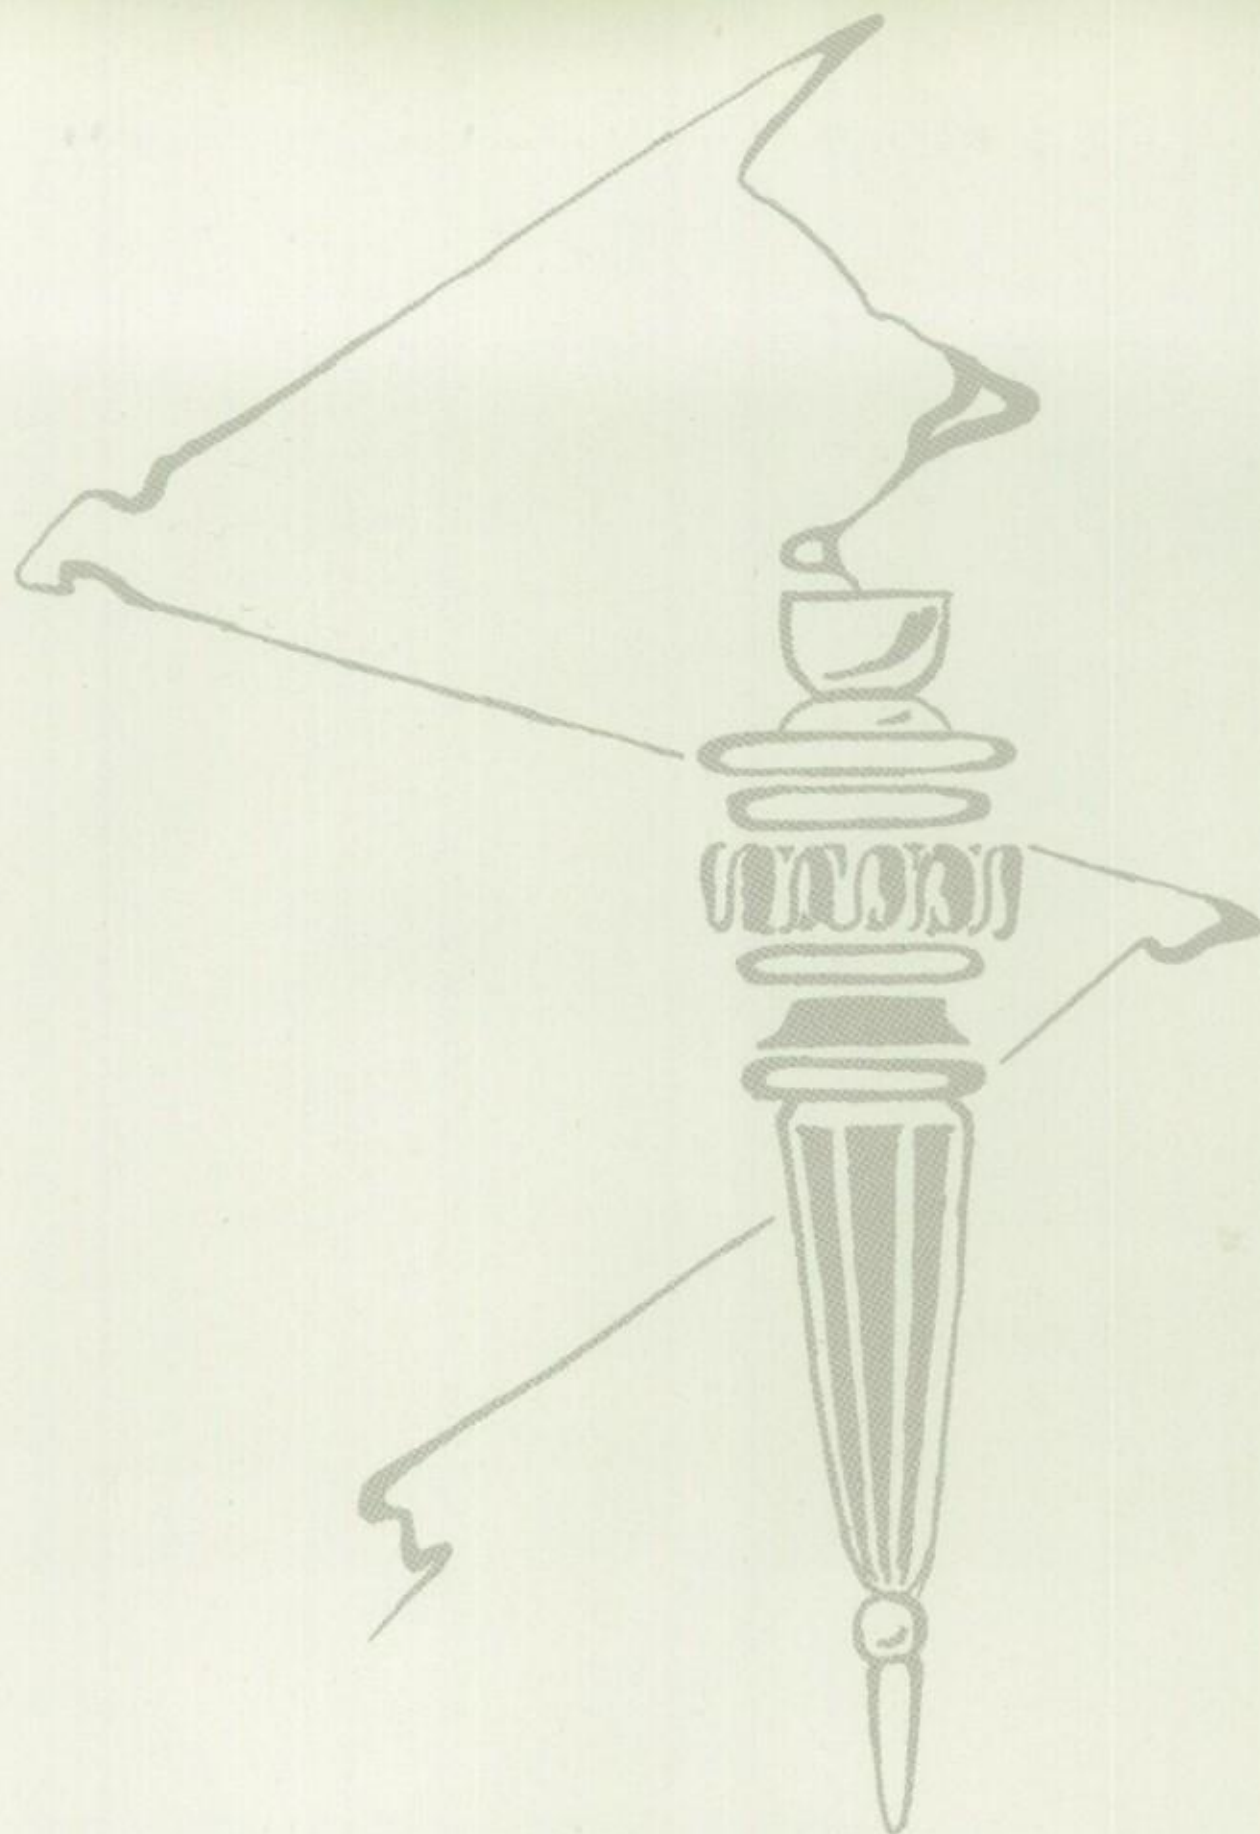

So live, that when thy summons comes to join  
The innumerable caravan, which moves  
To that mysterious realm, where each shall take  
His chamber in the silent halls of death,  
Thou go not, like the quarry-slave at night,  
Scourged to his dungeon, but, sustained and soothed  
By an unfaltering trust, approach thy grave  
Like one who wraps the drapery of his couch  
About him, and lies down to pleasant dreams.

## **COACHES AND TRAINERS**

Messrs. Donald B. Miller, Secretary; Richard Bollman, Vice Pres.; Mahlon Miller, President.

## JOINT BOARD PLOTS CONTESTS

Members of the three boards include: Lower Heidelberg:-- Richard G. Bollman, James R. Moyer, John S. Riegel, Thomas F. Greene, John Stowell.

Spring Township: George R. Wissler, Samuel A. Glassmoyer, Arthur Smith, Henry J. Ockenroth, Millard S. Reiff, Donald B. Miller, Robert L. Lindsay.

Sinking Spring: Samuel E. Tyson, Arthur M. Stover, Elmer L. Erb, Mahlon Miller, Fredrich R. Keene.

The Wilson Joint School Board is composed of three member school districts--Lower Heidelberg Township, Sinking Spring Borough and Spring Township. The three districts, which meet together once a month, were formed as a jointure on July 1, 1954. In addition to the joint meetings, school board members attend their individual board meeting.

The Joint School Board meets to discuss the financial aspects of the Olympics.

## DIRECTOR OF ALL WILSON'S OLYMPICS

Members of Class of 1962:

This morning about 7:00 A.M., the greatest single airplane tragedy of all time occurred near New York City with ninety-five persons reportedly losing their lives this March 1, 1962. By noon, Broadway, New York City, the world's most famous parade ground, was to be the scene of a joyous welcome to honor John Glenn, the astronaut who achieved great acclaim for his first successful orbital flight three times around the earth. Seldom do we find, historically, such extreme divergence in a day's news.

Our family had a tragic occurrence, in its group life, last November 22, just before Thanksgiving. Your class, most kindly, is assigning an "In Memoriam" page for our devoted son for which we most humbly thank all of you.

The Greeks who, more than a thousand years ago, gave us the Olympic games and contests, testing "a sound mind in a strong body" challenge us this day as a basic requirement for good general scholastic achievement. The marathon endurance contests have not always represented the best in our social life but the more fantastic. Applied to our philosophic school life, a well-rounded, basic education in fundamentals, at the high school level, desirable today, as it always has been, is to enter the professions of your individual choice according to your best ability.

Wilson High School provides for every group level of mental ability: for those who can and wish to excel; for those who are average, to do the best they can; for those who are slow to learn; sympathy and determination for the non-educable but trainable. The shrinking tax dollar is wisely invested in a teaching staff alert to "what's new in education," a modern utilitarian school plant with a flexible school curriculum.

Just as the pentathlon of old represented the winner of several physically demonstrative, enduring contests, so we call upon you to continue your education. Be industrious, play the game of life fairly and squarely, love thy neighbor as thyself, enjoy and appreciate the good things of life.

Sincerely,

William C. Kutz  
Chief School Administrator

## PRINCIPAL, MR. REHRER, TURNS OUT VICTORS

Dear Graduates,

The hope of every athlete who enters as a contestant in the Olympics is to equal or excel an established record. Every task undertaken by us in our daily lives presents a similar challenge to each of us who has the ambition to succeed. To be satisfied with the record of achievements of the past represents contentment which may well lead to stalemate or even disaster. Constant search and research to improve the physical and cultural aspects of our nation are not only desirable but mandatory if we, as a free society, expect to survive among the nations of the world.

It is difficult for most of us to understand the value of the effort put forth to conquer outer space. However, it appears that the nations' leaders use this venture, regardless of cost or sacrifice, as a means to impress each other with their superiority. In this race to prove themselves superior, the goal of the enemies of the free world will be the acceptance of their philosophy of life and form of government.

Your knowledge of forms of governments, as learned in high school, should make each of you determined that the ultimate goal of our rivals for supremacy shall never be realized.

Since colonial days our freedom has been threatened many times. Whenever this has happened, we have reaffirmed our stand to preserve it regardless of sacrifice or cost. Had we been content to continue to employ the use of weapons and methods of colonial warfare, defeat would have been a certainty.

As graduates, you will have the opportunity and responsibility not only to maintain, but also to improve the lot of mankind. Regardless of what you do -- enter college or other institutions of learning or training, take a job, or enter the armed services of our nation -- we urge you to be as determined to give of your best as are the athletes who enter the Olympics. This undoubtedly will help assure you a happy and successful life.

The faculty joins me in wishing you a happy and successful future.

Very sincerely yours,

Clayton D. Rehrer, Principal

# DISCIPLINE BUILDS CHARACTER

To the Class of 1962:

To win a prize in the Olympics was one of the greatest honors that could befall a Greek. To stand on the threshold of the Atomic and Space Age is not only an honor but a challenge to each member of this class.

These are not ordinary times. Mankind is passing through one of the most critical ages of all history. Human society is being shaken to its foundations; the social and political structure of the world is being transformed; new doctrines and philosophies profoundly hostile to the idea of individual liberty are sweeping over the earth; and the tide of despotism is rising among nations. To meet these threats, we need young men and women who are mentally and physically alert, who have the inspiration and unity of purpose so necessary to achieve a society of free and equal men throughout the world. The way in which you, the graduates, meet the challenge of the Atomic and Space Age will have much to do with how the nation's problems are solved in the years ahead.

Congratulations and best wishes! May God bless you in your future work.

Dr. Aaron R. Miller

# TRAINERS BUILD STAMINA

My sincere congratulations to the members of the 1962 graduating class for having achieved your "Olympic" goals. I am sure your constant dedication to the goals you have set for yourselves since the beginning of your junior high school years will continue to help you to hurdle the obstacles in life's pathways, enable you to leap across the abyss of indecision that will surely face you, and give you the added strength to vault over the pinnacle of high aspirations to the plateau of success for your final sprint to "Olympia."

May your efforts during your stay at Wilson not have been in vain.

Sincerely,

Arlan R. Moyer, Assistant Principal  
In charge of Junior High School
